

Sanicide Plus

Peroxyacetic Acid Liquid Sanitizer

SANICIDE PLUS[®] sanitizer that contains Peroxyacetic Acid (Peracid) which effectively kills a wide range of microorganisms that may cause food borne illnesses.

- Applicable in the food and beverage industries for sanitizing of equipments, utensils, and CIP applications
- Non-corrosive on stainless steel surfaces, even on aluminum surfaces and plastic or rubber components of equipments and utensils
- Does not foam – suitable for CIP, soak, spray and misty application which improves efficiency of sanitation step
- Upon usage, component breaks down to water, oxygen and acetic acid making it environment friendly.

General Use Instructions:

Sanitizing Food Contact Surfaces

1. Surfaces must be cleaned first with an approved cleaner/detergent.
2. Apply 0.1 – 0.8% SANICIDE PLUS[®] via immersion, spraying or circulation.
3. Allow a contact time of at least 1 minute.
4. Allow to drain and air dry. No rinsing required.

Misting and Fogging

1. Use an appropriate misting or fogging machine.
2. Prepare a 0.2 – 1.0% SANICIDE PLUS[®] solution.

Note: Before misting/fogging, remove or cover all products and packaging materials in the area.

3. Use 1 liter of solution per 30 cubic meter of the room.

Note: Allow mist/fog in the room for 30 – 60 minutes before entry/use.

Meat Sanitizing (beef, pork, chicken, fish)

1. Prepare 0.1 – 0.4% SANICIDE PLUS[®] solution. Verify concentration prior to use by dropwise method.
2. Dip meat (beef, pork, chicken, and fish) to be sanitized into prepared solution for 30 seconds.

Available scent:
Unscented
Available packaging:
Carbouy
